IBRAHIM SALEEM

AI Data Trainer (Coding & Tamil-English Bilingual) | Software Developer | HR Sr. Executive

Email: zainrizvi0611@gmail.com | Phone: +91 9994396125 | Location: Avadi, Chennai, Tamil Nadu
GitHub: https://github.com/zainrizvi0611-cmd | Languages: Tamil (Native), English (Good)

PROFESSIONAL SUMMARY

Detail-oriented Electronics & Communication Engineering (Diploma in ECE) graduate and former HR Senior Executive at Teleperformance Business Services Pvt. Ltd. (2021 - 2023) with strong hands-on skills in Python, Java, TypeScript, and open-source software development. Native Tamil speaker with good English proficiency, experienced in AI model training (RLHF / SFT), code debugging, prompt engineering, and bilingual linguistic evaluation.

TECHNICAL & CORE SKILLS

Programming Languages:	Python, Java, TypeScript, JavaScript (ES6+), SQL, C, HTML5, CSS3
AI & LLM Training:	RLHF, Supervised Fine-Tuning (SFT), Prompt Engineering, Code Review & Debugging, Rubric-Based Evaluation, Factuality Verification, Tamil-English Translation & Annotation
Tools & Platforms:	Git, GitHub, Node.js, React, Linux, REST APIs, Unit Testing, Advanced Excel
HR & Operations:	End-to-End Talent Acquisition, Candidate Screening, Onboarding, Compliance & Reporting

WORK EXPERIENCE

HR Senior Executive (HR Sr. Executive) — 2021 - 2023

Teleperformance Business Services Pvt. Ltd. | Chennai, Tamil Nadu

- Managed end-to-end talent acquisition, volume hiring, candidate screening, interviewing, and onboarding across technical and business support operations.
- Automated HR data reporting, applicant tracking records, and daily/weekly hiring analytics using Python scripts, SQL queries, and Advanced Excel macros, improving reporting efficiency by 35%.
- Organized campus recruitment drives, conducted bilingual (Tamil & English) communication assessments, handled offer negotiations, and verified compliance documentation prior to onboarding.

Freelance Software Developer & AI Model Trainer (Python / Java / Tamil) — 2023 - Present

Remote | Open-Source (github.com/zainrizvi0611-cmd) & AI Evaluation Projects

- Authored and reviewed coding prompts, reference solutions, and unit test suites in Python, Java, and TypeScript for Large Language Model (LLM) training, code generation, and debugging benchmarks.
- Contributed verified bug fixes and automated test suites to open-source engineering repositories (tscircuit/core PCB layout engine, schematic rendering, and component validation).
- Performed Tamil (Native) and English bilingual LLM response grading, evaluating factual accuracy, instruction adherence, grammar, and natural phrasing across technical and general domains.

KEY TECHNICAL PROJECTS

Open-Source Circuit & Layout Engine Contributions (tscircuit/core) | TypeScript, Python

- Built and tested fixes for capacitance validation, PCB keepout group packing transforms, schematic RGB color portability, and designator selector parsing with 100% CI pass rates across 18 check suites.

Automated Candidate & Rubric Evaluation Toolkit | Python, Java, SQL

- Developed Python and Java utilities to validate structured datasets, score candidate assessments, and generate automated quality audit reports.

EDUCATION

Diploma in Electronics and Communication Engineering (ECE)

Narasimma Pallavan Polytechnic College, Kanchipuram, Tamil Nadu
Coursework: Python & Java Programming, C Programming, Digital Electronics, Microprocessors, Circuit Design

Secondary School Leaving Certificate (SSLC / Hr. Sec.)

St. Andrew’s Hr. Sec. School, Arakkonam, Tamil Nadu

LANGUAGES

- Tamil: Native Proficiency (Speaking, Reading, Writing, Bilingual AI Evaluation & Localization)
- English: Good / Professional Working Proficiency (Technical Writing, Prompt Engineering, Business Communication)
